**Available nyb Colors  
From  
Sherwin-Williams**

**SALES BULLETIN  
SB-112  
March 11, 2003**

Customers often need touch-up paint in a hurry and cannot wait several days to have paint shipped to them. In an effort to remedy that situation, we asked Sherwin-Williams to provide color formulas to match several of our standard in-house paints, including our standard **nyb** green alkyd enamel, four epoxies (gray, white, blue, and Nomad tan), and two urethanes (blue and white). These formulas are available from any Sherwin-Williams outlet, and can be furnished in any of three standard, off-the-shelf Sherwin-Williams products: Tile Clad HS epoxy, DTM Alkyd enamel, and Metalastic DTM enamel, as detailed below. Now, when your customer needs some touch-up paint in a hurry, just hand them a copy of Sales Bulletin SB-112 and have them contact their local Sherwin-Williams dealer.

nyb Color	Sherwin-Williams Paints
